

Jonas Mattes

Senior Software Engineer

WORK EXPERIENCE

Freelance, Munich, Germany

Tech Lead / Senior Software Engineer 06/2024 – Present

Legacy Application Modernization | *Enterprise Client (15 months)*

Led **Angular migration strategy for .NET WebForms application**, architecting a new frontend and driving technical decisions. Reduced page load times by 90%+ and network traffic by 80%.

Knowledge Management Platform | *Startup (5 months)*

Architected and built an **AI-enhanced full-stack SaaS platform** as technical lead. Established infrastructure, including AWS deployment (ECS, RDS), CI/CD pipelines, and automated testing. Adopted **AI-first development approach** using Claude and GPT-4 for code review, refactoring suggestions, and rapid iteration on complex features.

UI Development | *Multiple Clients (ongoing)*

Translated Figma designs into **pixel-perfect, responsive React/Angular components** with focus on accessibility and cross-browser compatibility. Delivered production-ready interfaces exactly matching design specifications.

Google, Munich, Germany

Software Engineer (L3) 08/2022 – 12/2023

Part of a small, high-impact team **maintaining a code review platform for 80,000+ developers**, owning critical features that ensured global developer productivity and satisfaction. **Led data-driven product improvements** by analyzing user behavior patterns, iterating on solutions, and implementing features that measurably improved developer efficiency and satisfaction: improved IDE integration, reduced review friction, and optimized workflows. **My work led to 25+ SWE annual productivity savings.**

Zühlke, Zurich, Switzerland

Software Engineer 10/2019 – 07/2022

Rebuilt, in a team of <10 people, **Swiss Federal Railways (SBB) ticket vending machine interface, serving millions of passengers** across Switzerland's 1,000+ self-service terminals. **Architected and owned state machine logic** for critical payment processing, ticket printing, and transaction workflows, ensuring fault-tolerant operation for 24/7 unattended deployment across machines nationwide. **Collaborated with disability advocacy organizations** throughout the development lifecycle, conducting usability testing with users with visual, motor, and cognitive impairments to ensure legal accessibility compliance and universal usability.

PREVIOUS EXPERIENCE

Maiborn Wolff , Engineering Working Student, Munich, Germany	04/2017 – 12/2018
BMW , Engineering Working Student, BMW, Munich, Germany	06/2016 – 03/2017
KundoXT , Software Engineer, St. Georgen, Germany	01/2016 – 03/2016
Audi , Internship, Ingolstadt, Germany	07/2015 – 12/2015

SKILLS

Core Technologies:

TypeScript, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries:

React (19), Angular (20+), WebComponents (Lit, Stencil), AI SDK, RxJs, NgRx, Redux

UI & Design Systems:

Tailwind CSS (v3/v4), Material, Shadcn UI, Styled Components

Backend & APIs:

Hono, RPC, REST, PostgreSQL, Drizzle ORM, SignalR

AI Tooling:

Claude Code, Cursor, Greptile

Architecture & Tooling:

Turborepo, NX, Vite, esbuild, Webpack, Rollup

Testing & Quality:

Playwright, Cypress, Vitest, Jest, Karma, Jasmine, TDD, Performance optimization

Infrastructure:

Docker, AWS (ECS, RDS, S3), Github Actions, Terraform

Languages:

German (Native), English (CEFR level C2)

EDUCATION

LMU Munich

Master of Science
[Media Computer Science](#)
04/2016 - 12/2018

University of Regensburg

Bachelor of Arts
[Media Computer Science](#)
10/2012 - 03/2015
